A LIFE STRIPPED BARE: Tiptoeing through the ethical minefield. Eden Project, £10.99

Is it possible, in the 21st century, to lead a 'normal' life - to have a job, kids, a mortgage, holidays in the sun - but at the same time be respectful to the planet and the people who share it? Leo Hickman and his family set about finding out the answers in this record of an extraordinary transformation.

THE GREEN SCHOOL: How your school can achieve and promote sustainability. Adamson, £11.99

This passionate yet highly practical book is designed to inspire all those involved in running our schools - heads, governors, senior managers and all - with ways to embed green principles in all aspects of school life.

WHERE'S THE IMPACT? An eco footprinting activity. CAT, £28

This fun and engaging activity has been used with equal success with adults, teachers, students and school pupils of all ages, across geography, science, D&T and all global citizenship themes.

"... has been of great use to me in teaching about interdependence, climate change and ecological footprints. I have used it with many age groups from primary to adult and it never fails to cause amazement at the impact one small product has on the world."

MA course tutor

FOOD AND FARMING: Local and global. TIDE, £8

Ideas for KS 2&3 about how the food we eat ties us in to lives and places here and all over the globe. With case studies and activities that focus on food, farming and interdependence, strawberry growing in the UK, a Gambian school garden and banana production in the Windward Isles. Also in this series: *Climate Change; Water issues.*

CHEMBAKOLLI TEA PARTY. ActionAid, £21

Fun ideas on how to organise a fair trade tea party. It includes a pack of pure Nilgiri tea from Chembakoli in southern India, a paper tablecloth, and fascinating activities about the people who pick the tea and its journey to our classroom.

THE WORLD CAME TO MY PLACE TODAY. Eden Project, £5.99

A children's storybook that shows how we rely on the rest of the world for our everyday life. Children will be amazed to discover how plants from all over the world affect our daily lives. A picture on every page, plus a map.

ATLAS OF FOOD. Earthscan, £12.99

Vividly presented through the creative use of maps and graphics, this atlas for age 16+ provides clear, authoritative and comprehensive accounts of the food chain, and reveals how it affects the lives and livelihoods of us all, farmers and suburban shoppers alike. It looks at challenges including population, trade and food additives. One of a series on today's concerns (also: *Atlas of Water; Women in the World*), and winner of a Best Food Book prize.

CHANGE THE WORLD FOR A FIVER.**Community Links, £5**

Small changes x lots of people = BIG changes. This fun book is full of suggestions and ideas to help you change the world and make the people around you happier.

CONNECTING KIDS: Exploring diversity together. New Society, £15

There are more opportunities than ever for children of all ages to get to know others of different cultures, abilities and family backgrounds. This book aims to prevent social problems such as exclusion, intolerance and bullying by guiding children to connect in safe ways through the use of creative activities, exploring the wonders of nature and cooperative games.

CREATIVE SUSTAINABLE GARDENING. CAT, £12.99

Hands-on advice in this practical and entertaining guide on chemical-free gardening from soil conditioning to composting, mulching, worm farms, permaculture and more. There is advice on pest control, low maintenance gardens, landscaping with trees and companion planting.

CUTTING YOUR CAR USE. Green Books, £4.95

How much does your car cost a year? Could you share lifts and ownership? How can companies benefit from green commuting? This practical little guide is for people who want to reduce their car use by making simple changes to their travel habits.

DO THE RIGHT THINGS. NI, £7.99

Contains practical information about ethical shopping and socially responsible finance, recycling, renewable energy, action groups, lobbying, and more. *'This book inspires me. Power to the peaceful.'* Benjamin Zephaniah

GO BANANAS! Oxfam, £13

This popular photopack for KS 2 follows the journey of a banana from the Caribbean to the UK, showing that some food is produced overseas and helping children to engage with fair trade issues. The pack has 18 colour photocards and a 20 page booklet of puzzles, maps, worksheets, activities, information and curriculum links.

ONE PLANET LIVING. WWF, £4.99

This inspiring little book is about the choices and challenges we all face if we are to enjoy a high quality of life within the resources of the planet. It shows us how to adapt our everyday life and work environments in an easy, affordable way.

LOOKING BEHIND THE LOGO. Oxfam, £4.95

This flexible resource for age 13+ makes the global supply chain relevant to children's lives. Through an imaginative role-play game, activities and discussions, pupils can understand why workers are denied their basic rights, and consider how to stop worker exploitation.

NOT JUST FOR PROFIT. Co-operative College, £25

This resource pack introduces social enterprise into the school curriculum for the 14 - 19 age group. Social enterprises are businesses which trade in order to bring about social and environmental improvements. The range of classroom exercises is complemented by case studies of successful social enterprises, curriculum links and lesson planning, further ideas and resources to help schools develop links with social enterprises.

REDUCE, REUSE, RECYCLE: An easy household guide. Green Books, £3.95

Where can you take your unwanted medicines? Which foods are compostable? Use this invaluable guide to see how you can recycle most of your unwanted things and do your bit for the planet.

STUPID OR NOT: Education for a smarter planet. ActionAid, £25

Exclusive film clips, transcripts and animations from *The Age of Stupid* feature film. There are 14 story cards with engaging photos and an activity booklet in digital and print formats. The DVD has a documentary about the making of the film. For learners age 12+.

WATER: Use less, save more. Green Books, £3.95

Did you know we use 70% more water today than 40 years ago? This powerful little book offers 100 water saving tips for the home and the garden. Also in this series: *Energy: Use less save more.*
